

Presentation solution like never seen before

TechPod is a breakthrough audio-visual lectern. It has every multimedia capability built-in, and is managed through one simple control panel.

Complete solution at a touch of a button - just a few keys, with icons that transcend language, are in place to control every AV device, sound and even house lights.

TechPod, with its streamlined, contemporary lectern design offers an innovative, unique, fully integrated and, most importantly, **easy to use** presentation solution to every size and type of hall.

TechPod is an "out-of-the-box" solution, easy to install and use.

TechPod has already gained great success with hundreds of installations in various organizations such as universities, colleges, high schools, conference centers, military training facilities and more.

Reliability, ease of use and effectiveness has made TechPod a desirable presentation solution.

TechPod Features:

- 1 User friendly control panel
- 2 High-end computer interfacing to the institution/organization's network and to the web including built-in CD/DVD
- 3 Video for VHS playback
- 4 Integrated Visualizer for presenting documents, photos, and enlargement of various objects in real-time on the screen
- 5 Quick interface to laptop connectivity
- 6 Protected presentation screen, and special interactive TechPod pen for writing on it.
- 7 Microphone and complete hall sound system
- 8 Safe and secure – automatic operation and shutdown.
