Workstation  
Innovative Multimedia Console

## Presentation solution the way you want it!

TechPod Workstation offers an integrated multimedia console, suitable for classroom and training rooms, that carries a cost effective price.

Compact cabinet structure accommodates all the Audio-Visual equipment typically used in a presentation, with a locking door that keeps it safe and secure.

TechPod Workstation could be easily mounted beneath a teacher desk in a classroom, a corporate boardroom table, within a wooden podium, on a mobile cart and could even be wall mounted.

TechPod Workstation is equipped with TechPod breakthrough control panel for seamless operation and easy switching between the different AV sources. Just a few keys, with icons that transcend language, are in place to control every AV device, sound and even house lights.

TechPod products have already gained great success with hundreds of installations in various organizations such as universities, colleges, high schools, conference centers, military training facilities, corporations and more.

Reliability, ease of use and effectiveness has made TechPod a desirable presentation solution.
